Brick: Software Configuration Management Tools (Tools that assist in the task of tracking and controlling changes in software)
Domain: Applications Development
Effective Date: December 18, 2015

Current	+ Two Years
• **Baseline Technology** (Approved & supported for current usage.) • Apache SubVersion • MS Team Foundation Server	1. **Mainstream Targets** (Primary candidates for future deployment, subject to further review and acceptance by the CIO.) • Descendants of Baseline Technology.
2. **Retirement Targets** (Exit ASAP.) • Predecessors of Baseline products that lag by more than one full version from those that are fully supported by the product vendor.	4. **Containment Targets** (Current usage approved. No further proliferation. Long-term exit plan. For waiver, follow Waiver Policy.) • GNU CVS • Serena Dimensions Express (Merant PVCS) • Predecessors of Baseline products that lag by no more than one full version from those that are fully supported by the product vendor.

5. **Notes:**

• By default, Baseline Technology product versions are those that are fully supported by the product vendor. This includes "Extended Support", not just "Service Pack" or "Mainstream Support".
